

MERMET ACADEMY

Mermet Academy is a two-day, hands-on training event at our weaving and manufacturing facility in Cowpens, South Carolina. Time and time again, our customers have expressed how valuable and essential this program is to their internal teams overall technical product and specification knowledge. With the industry moving away from solely aesthetic design considerations, and increasingly becoming focused on integrated total building design goals, this course is a must for fabricators, dealers, and installers looking to elevate their value and expertise in the field.

Topics covered include:

- Yarn and Fabric Properties
- Fenestration, Solar Energy and Energy Efficiency
- Designing for Visual Comfort
- Aesthetic Design Considerations
- Mermet Product Overview
- Marketing and How to Sell

Meet the Presenters

Colin Blackford
Director of Strategy & Innovation

Ali Fisher
Product Manager

Lauren Jensen
Marketing Business Manager

Other Benefits Include:

- Gain access to exclusive Mermet products and services
- Strengthen working relationships
- Mermet can assist with arranging flights, accommodations, and entertainment
